## ENROLLMENT IN SCHOOLS STARTS FRIDAY

### Postoffice Bid Is Rejected For New Call

#### DEPT. IS NOT ABLE TO WAIVE RULE ON BIDS

New Bids Will Be Asked  
On Building During the  
Coming Two Weeks, Is  
Reported

#### CONNALLY WIRES

Single Bid Filed Is Above  
Amount Recommended  
For Building By Treas-  
ury Department

The government will re-advertise for bids for the Canyon post-office in about two weeks.

When word was received Thursday that only one bid had been made on the building, local citizens contacted Senator Tom Connally and Congressman Marvin Jones asking them to get in touch with Washington regarding the situation, and have the contract awarded if possible.

Senator Connally wired Clyde Warwick Saturday as follows:

"Have received the following wire from W. E. Reynolds, assistant director of procurement treasury department as follows: Referring to your telegram urging award of construction contract for postoffice at Canyon, state that only bid exceeded funds available and this together with inadequate competition necessitates rejection. Circumstances permitting project will be readvertised within two weeks."

J. J. Fritch of Dallas made the only bid of \$57,300 on the building. Mr. Fritch called W. A. Warren Thursday morning advising that his bid would likely be rejected unless the department was urged to accept the amount. Mr. Fritch has the contract on the Quanah postoffice, and his bid was within a few dollars of the one under which he was awarded the Quanah job.

Both Senator Connally and Congressman Jones expressed doubt as to whether the treasury department could award the contract without at least three bids, but did their best in urging that under the circumstances of this low bid, that the contract be awarded.

If the project is readvertised immediately, it will mean that little work will be done on the building before the first of January.

#### Training School Will Enroll Stu- dents, Sept. 15th

Supt. F. E. Savage stated yesterday that the fall term of the W. T. Training School will begin on Tuesday, Sept. 15th.

All students in the elementary and high school will be expected to enroll on that date. Arrangements will be made to take care of all pupils who wish to enter the training school, states Mr. Savage. There will be no tuition fee charged, and state textbooks are furnished to the students.

#### ELECTED TO DALHART

Lawrence Brotherton has been elected coach of the Dalhart high school. He is an ex-student of W. T. and former football player. Brotherton was coach at Channing last year.

Mrs. Fannie Smith and daughter Evelyn, of Lancaster, Calif., are visiting at the C. H. Stratton home. Mrs. Smith is a sister of Mr. Stratton and formerly lived in Canyon.

Mr. and Mrs. J. D. Barker are on a vacation trip to New Mexico.

Mr. and Mrs. Ralph Jones, Mr. and Mrs. L. B. Hammond and daughter, Jean, returned last week from an extended trip through Arkansas, Missouri and Oklahoma. They attended the Centennial at Dallas also.

A. W. Sternberg and family have returned from Dallas where they attended the Centennial, and visited at other points while away.

### August Heat Record on Plains Smashed

Slight Rainfall Also Sets  
Drouth Record During  
Months of July and  
August

The month of August broke all heat records on the Plains, according to the United States weather bureau in Amarillo. Seven consecutive days with a temperature of more than 100 degrees, and 27 in the month with more than 90 degrees beats the Amarillo record. No official temperature record is kept in Canyon by a government observer.

The drouth record of July and August falls in Canyon with only .75 of an inch rain during July and .15 of an inch during August. So far this year the moisture measures 9.13 inches. Of this amount 5.62 inches fell in May, and 1.18 in June. This rainfall made the wheat crop, and also was responsible for the splendid start on the row crop. However, the early feed crop has largely been burned, and the late crop is suffering very badly as a result of the continued heat and drouth.

H. T. Collman, Amarillo observer, states that the warm weather will continue for at least two more weeks. He makes no prediction as to rain.

#### Light Showers

Light showers have fallen in Canyon during the past week at three different times, but the total moisture was of small significance. The first shower came Saturday morning. Another one fell yesterday afternoon and the third one hit last night. It is reported this morning that Wayside received almost an inch of rain last night.

### Wheat Compliance Papers are Being Brought to Finish

The county agent's office is busy this week finishing up compliance papers on the 1936 wheat adjustment program. This is the last work-out of adjustment contracts in force when the program was terminated on Jan. 6th this year. A substantial payment will be made to all farmers who complied with the terms of the wheat adjustment program at seeding time last fall.

Compliance work on the new Agricultural Conservation Program which followed the crop adjustment, will be started within a few days. Supervisors will be employed to check compliance. An examination will be held at the county agent's office Monday, Sept. 7th at 10 a. m. for the purpose of establishing an eligible list from which to employ these men. It is expected that field work will be completed in about 30 days.

Payments will be made some time this winter to all farmers who show proper compliance. These payments will be made to farmers without regard to previous participation in adjustment programs.

#### No Changes Made

In Official Count  
of August Primary

The official count of the August primary was made Saturday, and no changes were found in the returns.

Clyde W. Warwick, county chairman, has filed the official returns with both the County Clerk and the State Executive Committee.

Rev. and Mrs. Charles L. Dickey and daughters returned Tuesday from a two weeks vacation spent at the home of Mrs. Dickey's parents near Childress.

Mr. and Mrs. Roscoe Ballard and family of Happy visited in Canyon Sunday.

### Eagles Football Team Starts With 25 Men Working

Lefors Will Be First on  
Heavy Schedule Which  
Has Been Made—Team  
Will Be Light

Twenty-five candidates for the high school Eagles team are working daily under the direction of Coach Emil Hutto.

The team is rather light in weight, but on the average has about the same material that Canyon has produced during the past few years.

The first game of the season will be played at LeFors on Sept. 18th. A heavy schedule has been made for the season, which includes some of the outstanding teams of this section. Following LeFors other schools will be met in the following order:

- Sept. 25, Panhandle at Panhandle.
- Oct. 2, Dumas at Canyon.
- Oct. 9, Perryton at Perryton.
- Oct. 16, White Deer at White Deer.
- Oct. 23, Tulia at Canyon.
- Oct. 30, Happy at Canyon.
- Nov. 6, Dalhart at Dalhart.
- Nov. 13, Hereford at Hereford.

#### BOONE MCCLURE NAMED TO AMARILLO SCHOOLS

Boone McClure has been elected teacher in the Amarillo schools. For the past two years he has been teaching English in the Childress high school. He is an ex-student of W. T.

He starts his new work next Monday.

A. C. Donnell and family are in Dallas this week attending the Centennial.

### BUFFS START FALL TRAINING

Next Thursday, Sept. 10  
Is Opening Day For  
Full Squad To Meet the  
Coaches on Field

#### SCHEDULE IS MADE

Experienced Letter Men  
Will Return for Baggett  
and May: Cox is Fresh-  
man Coach

West Texas State's gridsters will enter the field Sept. 10 with high aspirations. With the 10 lettermen, 20 sophomores from the formidable freshman team of last year and several junior college transfers going into training the 10th, the W. T. mentors expect to go places this season.

Al Baggett, who has been in school in Columbia University this summer has just recently returned to take up his duties as head coach. Helping him will be Bob Cox, freshman coach and varsity scout. There will be a new face in the coaching box at W. T. this year—Marshall May, former Vernon high school coach who arrived Wednesday to assume the duties of line coach.

The Buffaloes will have a powerful line this season, built around Captain Leo Jackson from Floydada at the pivot position with seven lettermen to aid him. These burly lettermen are: George Caviness from Causey, N. M.; Ezell Champion of Memphis; Oscar Hinger from Endee, N. M.; Vernon Johnson and St. Marchbanks both from Childress; Toby Waggoner of Hale Center; Craig Walling from Farwell. The back field will see some changes; but with those hard hitting full backs, Lwood Dow and Conway Butler to carry the brunt of the agate toting, and several other dependable men especially the lettermen and squaddens, namely: Lewis Gibson of Crowell; Tom Slack of Canyon; and Foster Watkins of Dumas to fill the remaining positions, the back field won't be found lacking.

### Saturday Feature Announced to Con- tinue to Christmas

W. A. Warren announced Saturday that the regular Saturday afternoon feature which is sponsored by 40 business firms would be carried on until Christmas.

"A slight change may be made this week by the committee in charge, but on the whole the arrangements will be the same as in the past, stated Mr. Warren. Full particulars will be announced Saturday afternoon at 3:00 o'clock by Mr. Warren.

One of the largest crowds of the year was present last Saturday and it is expected that there will be an increase next Saturday owing to the interest taken in the opening of the public schools.

### High School Band Will Visit Fair on September 23

The Canyon high school band will visit the Tri-State Fair on Wednesday, Sept. 23rd, which has been designated as Canyon day for the Fair. This will be the first time a Canyon high school band has visited the Fair.

The West Texas Buffalo Band has visited the Fair many times in the past. Dr. J. A. Hill was out of town last week when Mason King was here to set the Canyon day. Director C. E. Strain states that the Buffalo Band may visit the Fair one day if the organization can be gotten in shape after the college opens on the 15th.

#### WAYSIDE REUNION DRAWS LARGE CROWD FRIDAY

One of the largest crowds that Wayside has ever had gathered for the annual reunion last Friday.

A rodeo was put on during the afternoon which added to the interest of the day's program.

Chas. Strain, Jr., left Sunday for Tucumcari, N. M., where he is teaching in the public schools and directing the high school band.

### CLASSES WILL START WORK NEXT MONDAY

Trucks Will Run Friday  
For Benefit of Enrollment  
of Canyon School  
Children

#### ASSEMBLY MONDAY

Faculty Is Complete and  
Work Assigned by Supt.  
Irby Carruth For the  
Coming Year

Enrollment in the Canyon schools will start Friday morning at nine o'clock, and class work will begin next Monday morning.

Students in the 7th, 8th and 9th grades will enroll in the morning from 9:00 o'clock until noon. Those in the 10th and 11th grades will come in the afternoon from 1:00 o'clock until 4:00 o'clock.

Grade school pupils will be enrolled between 9:00 o'clock in the morning and noon. The school trucks will go after the country children in the morning and will leave the school building at noon to return them home.

Students who are entering the Canyon schools for the first time are asked to bring their grade books from the school attended last year, as this will greatly facilitate the enrollment of the students.

The trustees have filled all places on the faculty, having elected John R. Sanderson of Itasca to the last vacancy. He is a graduate. (Continued on last page)

### Democrats Are Asked to Donate \$404 for Campaign

Randall County Democrats are requested to contribute 20 cents per vote cast in the July primary to the National Democratic Committee in order to carry on the campaign to re-elect President Roosevelt and Vice President Garner.

The total subscription asked from Randall county is \$404. Roy Miller, campaign director for Texas, states that every Democrat in Texas should make a donation to the campaign fund, and urges local citizens to make this donation at once. It is planned to raise \$250,000 in Texas at the rate of 20 cents per vote.

Randall county Democrats may leave their subscription with Clyde Warwick, county chairman, at the First National Bank, or with Guy Harp at the postoffice.

### Happy Considers Founding Rotary Club Very Soon

W. A. Warren, vice president of the Canyon Rotary Club, Irby Carruth, past president, Wes Kleinschmidt and Floyd Savage were invited to Happy Tuesday to talk with business men regarding the organization of a Rotary Club in that town.

A group of Happy business men accepted the invitation to visit the Canyon club next Tuesday for the noon luncheon, and further investigate the organization steps necessary.

All of the Canyon Rotarians talked before the Happy group regarding the advantages of the club.

#### 31 YEARS ON PLAINS

C. R. McAfee stated Tuesday that 31 years ago that day he unloaded his household goods in Umbarger. He moved into Canyon in a few months, and lived here until he went to Amarillo as manager of Green Bros. Co. He is now back in Randall county, having bought the Merry ranch northeast of Canyon a few years ago.

Penrose Metcalf of San Angelo was here this morning. He is State Representative and has always been interested in this section of the state.

Miss Frances Usery will leave this afternoon for Los Angeles where she will spend this winter in study at the University of Southern California.

### JACK AND THE CORNSTALK

### Many Range Hands Attend Annual T-Anchor Reunion

A large number of former T-Anchor range hands and cowpunchers on other ranches in West Texas spent Thursday at the Wrage Park. This was the annual reunion which is looked forward to by those who rode the range in the early days.

An interesting program was given following the basket dinner which was served at noon.

#### HAD OPERATION

Miss Hellen Hickman underwent an operation at a Dallas hospital on Monday. She is reported to be resting very well.

Miss Ruth Gamble returned to California Sunday after visiting with her father, O. N. Gamble, for several weeks.

Mr. and Mrs. T. A. Hicks of Wichita Falls visited here last week with S. H. Heyser.

## LIMITING REPRESENTATIVES

Editor E. I. Hill of the Tahoka News had a very able argument in opposition to the constitutional amendment which would limit the number of state representatives in the large counties of the state. The writer took the very same position six years ago that Mr. Hill has taken, and voted against the passage of this proposed amendment when it was introduced in the House of Representatives by George Moffet.

After discussing this amendment with Mr. Moffet and reading the records as to the position taken in other states which had large cities, we were forced to admit that the amendment was just and should be passed. Consequently we assisted in passing it through the House.

The West Texas Chamber of Commerce has circulated a very able discussion on this question.

So far as The News is concerned, the best argument in favor of this amendment is to be found by analyzing the votes of the rural and the city counties. Randall County polls a much larger per capita vote than does Potter county; Potter county likewise exceeds Dallas or Harris county. The cities draw a much larger percentage of Negroes, Mexicans and transients who never participate in elections, and who care nothing for politics, or government.

There is more intelligence expressed on any political question in the rural sections than in the cities.

As a matter of record throughout the years, more able representation is found in the legislature from the rural sections than from the cities, where cliques and clans control and manipulate the elections.

The News believes that careful consideration of this amendment will lead the voter to the conclusion that it is a just one, and one that the people of Texas should adopt before the state is redistricted.

The terrible destruction of a civil war caused by religious hatred is being witnessed in Spain. That unfortunate nation has been the victim of religious strife for many, many years. There is no bitterness in the world so destructive as religious hatred. Men will kill as quickly while in the heat of religious disagreement as in any other passion. Men seem to forget that once they have made up their own minds on a religious belief that there is any possible grounds for them to be wrong. In the heat of religious arguments, men entirely lose control of their faculties, and turn to a bitterness that is destructive toward the one who disagrees with them. People of this nation cannot comprehend the battle that has been waged in Europe between the forces of Church and State, since Americans have always been allowed to worship as they please, and under whatsoever creed as they choose. The multitude of churches, creed and doctrines found in this nation look very foolish at times, but these are much superior to a religious civil war.

President Roosevelt is the first President who has ever given the farmer a square deal, and has made a scientific study of farm problems. During the past two weeks the President devoted his time to the study of two great forces which are working against the interest of the farmers—flood and drought. After touring the flood area of the east, he comes to the drought area of the west. He is conferring with local citizens who have studied these problems. For the first time in the history of this nation a President is seeking to control the ravages of erosion, which are rapidly devastating the soil of the nation. This nation can support a population many, many times its present number without the least difficulty if the soil is saved. But the soil has been allowed to deteriorate so rapidly in the past 100 years that something must be done or future generations will suffer. The farmers of this nation are not likely to forget in November the man who is working not only for their immediate benefit, but for the future farmers of America.

## F.D.R. to 'Touch Off' Boulder Dam Power

Signifying man's mastery of the Colorado river, President Roosevelt will touch a button at the Third World Power Conference in Washington, D. C., Sept. 11, to start power generation at the great Boulder Dam. The above picture shows the water gushing from the outlets below the dam on the Nevada side of the river. Twelve valves will open on the Arizona side when the president presses the button 3000 miles away, releasing another great artificial waterfall. As the huge generating plant goes into action, the power it generates will operate lights and machines in Los Angeles, 270 miles distant.

of election employees in every election held in the county. In the interest of time, expense and accuracy, the commissioners will install the machines. There has been considerable discussion about voting machines in Texas for a number of years. The first cost of the machines is the serious handicap. The first vote the writer cast was upon a voting machine. There is less chance to make an error in voting on the machine than with the paper ballot. The counting of the machine is as rapid and accurate as an adding machine. It will not be many years until every large county in the state will vote by machines.

Straw polls are being taken in almost every conceivable manner to determine whether or not Governor Landon will defeat President Roosevelt in November. The Literary Digest is mailing 10 million ballots, which is by far the most comprehensive straw vote to be undertaken in the nation. While other votes indicate a close run between the two candidates, in practically every instance President Roosevelt is assured of re-election.

Tree experts advise all property owners to soak their trees during the next two weeks. The summer and fall have been so dry that the trees are suffering. Another soaking is recommended for January if the dry weather continues. The

dry weather has been exceptionally hard on the trees and lawns. Very few residences in Canyon are up to par this fall.

Highway officers urge drivers to cut down their speed for night driving. The advice could well be applied to other forms of speedy night life—the consumption of booze, late hours, over eating, too much dancing. Night is the playtime for a large percent of the American people, when as a matter of fact nature provides it for the rest period.

Irvin Cobb raised the question as to why the government does not deport the four million aliens who have illegally entered this nation, in view of the fact that most of them are on relief. If these could be returned to their native lands, the unemployment problem would be reduced to about 33%. The question is, why not?

If Governor Landon and William Lemke make enough speeches, there should be no question about the result of the national election. Landon's voice is not appealing, while that of Lemke's is repulsive. The smooth soothing Roosevelt voice has its popular appeal.

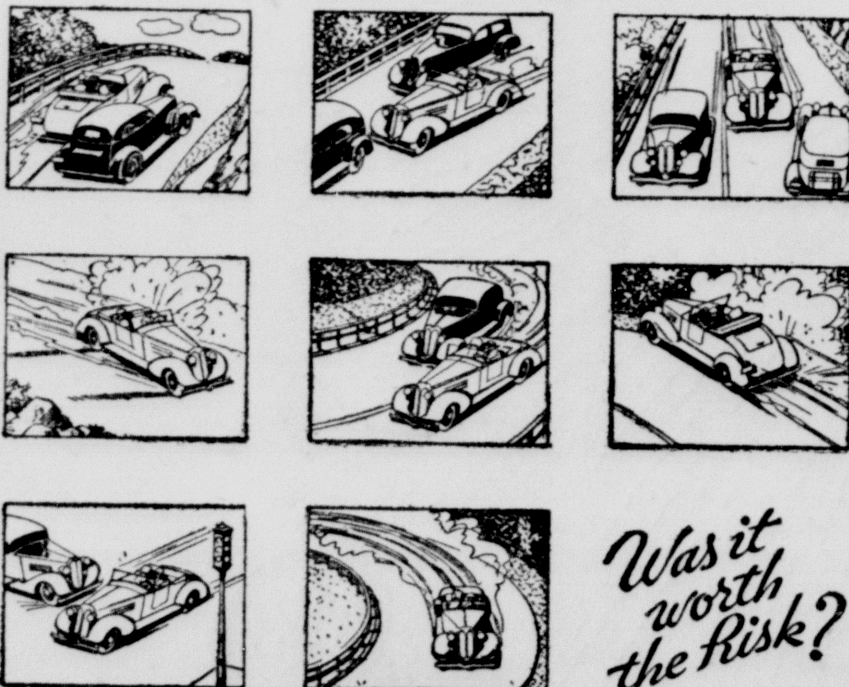

Amarillo News headline: "Panhandle is soaked by slow, drizzling rains." Another Polk Street rain?

Charles Edward Donnell had his tonsils removed Friday.

## What's the Big Hurry?

..and here are some of the things he DID on the way up!

Was it worth the Risk?

Travelers Ins. Co. Safety Service.

Between 1925 and 1934, inclusive, the rate of death from automobile accidents increased 17 per cent in urban territory of the United States. But while this change was taking place, the rate of death increased almost 100 per cent in rural territory. (Urban territory includes all towns and cities more than 10,000 population, and rural territory the remainder.) Last year there were nearly 160,000 automobile accidents which happened on rural highways which resulted in close to 14,000 deaths.

Many of these deaths happened because drivers took chances and drove too fast for conditions, as illustrated above. That speed is a more serious factor in deaths on highways than on city streets is indicated by the fact that at city street intersections last year deaths from almost 300,000 accidents numbered only 6,000, less than half the fatalities from accidents on highways. This information shrieks a warning about the danger of driving too fast, no matter how good a driver a person regards himself.

## THE BIBLE AS A TEXTBOOK

Bible students have found references therein which may be used in the everyday life of each and every person. Men and women are allowed a free range in this nation to read the Bible and to place their own interpretation upon the passages.

The following references have been found useful in times of difficulty:

When "things look 'blue,'" read Isaiah, chapter 40.

When tempted to do wrong, read the 139th Psalm.

If you are facing a crisis, read the 46th Psalm.

When you are discouraged, think over Psalm 23.

If you are "bored", read Psalms 103 and 104, or Job, chapters 38-40.

When business is poor, read Psalm 37.

When you are lonely or fearful, read over Psalm 27.

When you are anxious for dear ones, read the 107th Psalm.

When you plan your budget, read St. Luke's Gospel, chapter 19.

To live successfully with your fellowmen, follow Romans, chapter 12.

If you are sick or in pain, read Psalm 91.

When you leave home for labor or travel, carry Psalm 121 with you.

When you are very weary, seek St. Matthew 11:28-30, Romans 8:31-39.

When everything seems to be going from bad to worse, try II Timothy 3.

The best investment is described in St. Matthew's Gospel, chapter 6.

Does God figure in our national life? Read Deuteronomy 8.

When your friends seem to go back on you, hold fast to I Corinthians 13.

For inward peace, consider the 14th chapter of St. John's Gospel.

Have you been placed in a position of great responsibility? Read Joshua, chapter 1.

If you have been bereaved, there is a message for you in I Corinthians 15, and Revelation 21.

For a stirring record of what trust in God can do, turn to the 11th chapter of Hebrews.

If you are satisfied with being "well-to-do" read chapters 15 and 16 of St. Luke's Gospel.

If you have experienced severe losses, read the last paragraphs of chapter 8 of Romans.

If you are having to put up a stiff fight there is a fine equipment listed at the end of Ephesians.

When you have sinned, read I John, 1, St. John 3:1-21. Isaiah 53, and make Psalm 51 your prayer.

The way of prayer—I Kings 8; Psalms 42, 51; St. Luke's Gospel, chapters 11:1-13; 18:1-14; St. John's Gospel, chapter 17; Ephesians, 3.

If you have a fear of death, read St. John, chapters 11, 17, and 20; Corinthians, chapters 4, 5; Romans, chapter 8; Revelation, chapters 7, 21, and 22.

Officer: What's your hurry? You were doing 39 miles an hour in a 22-mile zone.

Offender: You'll have to overlook it, officer. I'm Judge Fogge and I'm in a hurry to get to court to dispose of 27 speeding cases.

## Farmers Save With Cold Storage

Introduction of small cold storage plants over the middle west offers farmers a system of food preservation that is both convenient and economical. By renting a locker, a farmer may bring in his meats after butchering and store them in temperatures 20 degrees below freezing for a yearly cost of approximately 2 cents a pound. An attendant at a plant in Ames, Ia., is shown above demonstrating one of the small lockers.

It is claimed "the truth will make you free." And there are times when it can get you in jail. Facts are easily accepted if they happen to agree with our preconceived notions.

Labor Day is Mr. and Mrs. America's day . . . the time when we honor the thousands of men and women who make the foundation of this great nation. We take special pride in this tribute because of our close relationship with labor . . . working with it and serving it day by day through thick and thin.

How YOU Can Help  
AMERICAN LABOR  
. . . . and Yourself!

There is one way you can help American Labor to secure a steady job. It is by buying goods made in U. S. A. There is one way you can help make sure of your own and your country's prosperity. It is by buying goods made in U. S. A. It should be your patriotic duty to insist on such goods whenever and wherever possible.

Far more is needed than a passive approval, once a year on Labor Day, of the aim and ideals of American Labor. American Labor organizations seek to improve the working conditions and living standards of every American workman and woman and hence are helping the country's welfare—and they need your active support. Every housewife, every family head can help by insisting on American-made goods at every shop and store. You can do your part.

# Tri-State Fair To Open September 21

With a special invitation for all Canyon and Randall county to attend the Tri-State Fair in Amarillo, September 21-26, Bill Beechler and Mason King were here Friday.

Beechler, who is general manager of the Cunningham Floral Company in Amarillo, is that city's "good will ambassador" and a vice-president of the fair association.

King, a member of the Amarillo-News-Globe staff, is racing director for the Tri-State Fair.

Cash prizes for the largest delegations visiting the exposition with bands have been increased again this year—\$125.00, \$67.50, and \$37.50.

Last year these prizes were \$100, \$50, and \$25—won by Happy, Hereford and Groom, respectively.

"The visiting delegations with their bands help make the Tri-State Fair just about the most colorful attraction in the Southwest and we want everyone to come back again this year, because the exposition is going to be bigger and better," said Beechler.

Mason King pointed out vast expenditures had been made at the fair grounds since the last exposition.

"Exhibit buildings have been remodeled and enlarged and such extensive improvements have been made at the track that the Tri-State Fair now has the best minor plant in the Southwest," declared King.

The Tri-State Fair's fall race meet starts Friday, Sept. 18, and continues throughout exposition week.

Gene Howe, known everywhere as "Old Tack," this year heads the fair association.

O. L. "Ted" Taylor is secretary-manager.

"Both the president and secretary-manager assure us all of the cash premiums will be paid in every department," said the visitors. "The fair association has money in the bank to meet all prizes offered."

Fred: I notice you never compliment your wife on her cooking. I always praise my wife when she cooks something I particularly like.

Karl: I don't because she'd serve me the same dish every day for a month.

Henry: Wouldn't your mother be angry if she saw you in those "terrible" shorts?

Edythe: I expect she would. They're hers.

Mettler: I see Milt Fall is all set for his fishing trip.

Dowell: How do you know?

Mettler: Last night I saw him buying an enlarging device for his kodak.

Dorothy: I'm sorry I had to keep you waiting.

Ray: Oh, that's all right. Now if you'll wait about ten minutes I think I'd better get another shave.

John D. M. Hamilton, national chairman Republican party: "Iowa is, perhaps, foreign stuff to Jim Farley—just another typical prairie State."

George Lansbury, former British Labor Leader: "Britain has done her share in exploiting great areas of the world for her own national glory."

Edwin L. James, newspaper writer: "After preaching brotherly love for the Lord knows how long, we are going to build a lot of new warships."

Alf M. Landon, Republican candidate for President: "Ours is to dedicate ourselves anew to the great future of America."

Daniel C. Roper, Secretary of Commerce: "The greatest of all human fears is that of starvation."

Bernard M. Baruch, American capitalist: "The barbaric sweating of labor can jump any tariff wall or undermine any currency stabilization."

Henry A. Wallace, Secretary of Agriculture: "The Weather Bureau's records suggest that extreme drouth in particular regions may be expected to occur at intervals of thirty to forty years."

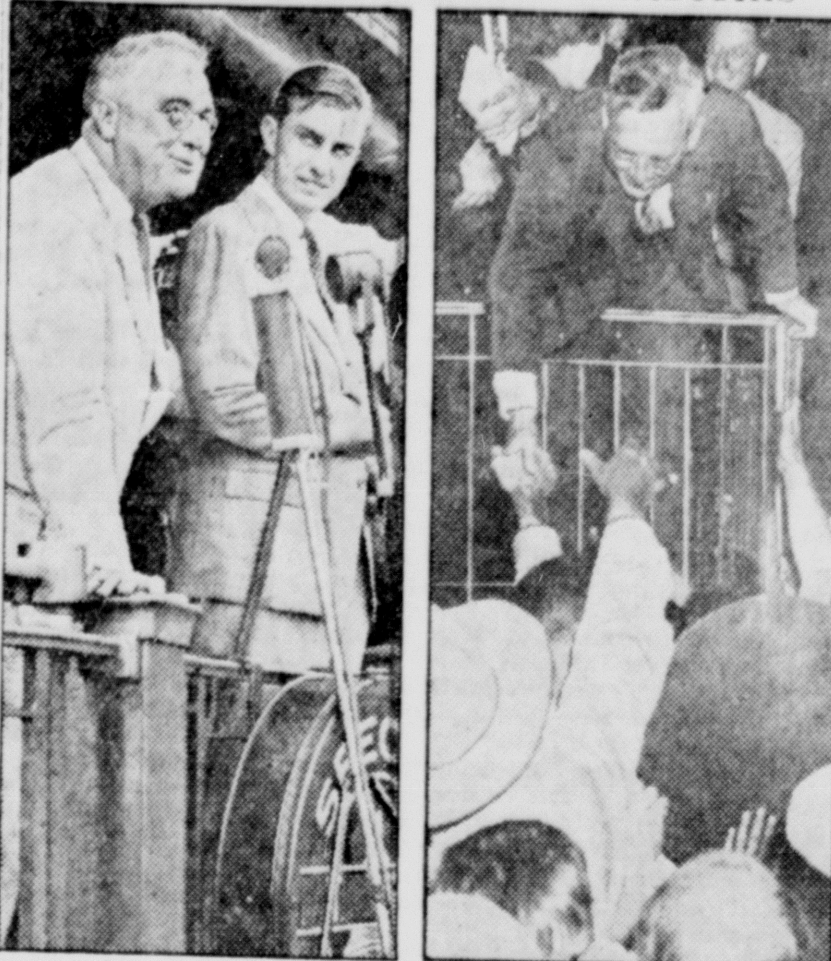

Nicholas Murray Butler, president Columbia University: "Skepticism, cynicism and fault finding multiply every day."

Walter W. S. Cook, professor, back from Spain: "The Spaniard, when aroused, fights with a religious enthusiasm and a fierceness unequalled elsewhere."

Generally the fellow who was driven to drink was headed in that direction already.

Reports from the rival political camps indicate that we will elect three Presidents this fall.

## Give Platforms From Platforms

Journeying back and forth across the nation, President Roosevelt, shown left above with one of his sons, and Governor Landon, right above, make numerous stops to air their views and greet voters from observation platforms of their special trains. Air-conditioned coaches and other travel improvements have eliminated many of the old-fashioned hardships of the political campaign.

## Which One Is Really Dangerous?

THIS FELLOW IS KEPT OUT OF CIRCULATION

HOW ABOUT THIS FELLOW?

Travlers Ins. Co. Safety Service.

The driver only has the privilege of using the streets and highways as long as he does so in a proper manner. Notwithstanding that this principle is generally recognized, it seems to be difficult to rid the streets and highways of the careless and reckless driver. It seems to be the impression, in theory as well as in practice, that a person should be permitted to drive as he pleases as long as he is able to pay for the injuries or the damages he causes. The fellow who, for example, thinks he's Napoleon—everyone knows the type—isn't allowed to run loose. Not at all. Even if such a person isn't put somewhere to be cured, he is not permitted to play around with potentially dangerous implements. But how about the driver who

thinks he's Sir Malcolm Campbell? That is the fellow who thinks that he can do anywhere from 60 to 100 miles an hour on the highway, and very often does. Shouldn't society demand that such a driver be kept out of circulation? The answer to that question will depend largely upon how many think they are capable of driving at excessive speeds. People have been heard to say "Well, maybe what you say about speed is true, but it's different with me because I'm a good driver." The driver has yet to be found who admits he may be a little under par at times. Often the more under par a driver may happen to be, the more he is likely to think he's a Sir Malcolm Campbell. People are funny that way.

## Just Dots . . .

With a map of Randall County and a pencil, The Canyon News could fill the major part of it with tiny dots. They'd be

## Just Dots . . .

But each of them would represent a home into which The News goes as a welcome visitor each week. Many of them would be homes in which it has gone since the paper's first issue.

## Just Dots . . .

But their number has increased year by year. Across this map, speckled with circulation dots, the newspaper's influence continues to spread.

## Just Dots . . .

But each of them stands for a family to whom some advertiser wishes to talk. Through The News he can do it more ECONOMICALLY THAN THROUGH ANY OTHER MEDIUM. All he pays is the cost of space he uses . . . no mailing worries, no postage, no uncertainty of coverage through miscellaneous distribution, no extra printing costs. And his message, surrounded by live news matter, will be READ AND RE-READ.

## Just Dots . . .

But The News reaches each of them MORE EFFECTIVELY, CONVENIENTLY, AND AT LESS COST THAN ANY OTHER CHANNEL. This newspaper, through its dots, joins the hand of buyer and seller. Let's talk it over, Mr. Advertiser. The News is yours to serve, to save you money and to make you money.

For The Canyon News Want Ads are like the famous Mounties. They invariably "get their man"—which means that they do what you want and expect them to do. ## World-Famous Power Authorities Gather in Washington for Conference

WASHINGTON.—Almost 3000 representatives of more than 50 nations will don formal dress and decorations the evening of Sept. 7 for the opening session of the Third World Power Conference and the Second Conference on Large Dams.

Lasting out the week, these meetings, especially the power conference, will furnish many hints of what is to come in such important fields as rural electrification, utility regulation, public ownership, and many others.

Along this line, one of the big purposes of the power conference is to furnish the laymen of all nations with an easy-to-understand appraisal of things the engineer has done in development and conservation of coal, oil, gas, and water power resources.

The assigned topic is "The National Power Economy." A breakdown into 18 subjects provides each of the some 620 delegates opportunity to discuss special phases of the main topic in which his country is particularly interested.

A SPECIAL exhibit is the Rural Electrification Administration's electrified farm near Herndon, Va. This model farm has more than 100 electrical devices, from the siren replacing the old dinner bell to new equipment which requires only three minutes to bring

One of the federal power undertakings to be visited by delegates to the World Power Conference is the great Bonneville dam and hydro-electric project, shown as nearly two-thirds completed, in the above picture. REA Administrator Morris L. Cooke, inset, has been active in arranging details for the meeting of power authorities in Washington, D. C.

cooled milk from cow to consumer.

This farm is only 20 miles from Washington and will give visiting power experts a graphic illustration of what REA hopes to bring to a majority of American farms.

Study tours to important power centers of the United States and Canada will follow the conference adjournment. The delegates will visit the huge public hydro-electric system in Ontario, TVA, Boulder Dam, Bonneville, Grand Coulee, Fort Peck, and other federal projects, in addition to inspecting large private plants, such as those of General Electric and Ford.

A highlight of the week will be the American National Committee's banquet, given to all members and delegates of the conference and official guests. Expecting at least 2500 to attend, REA Administrator Morris L. Cooke, committee chairman, made arrangements to hold the big dinner in the main waiting room of Washington's Union Station. No hotel in the nation's capital could accommodate the crowd.

PRESIDENT ROOSEVELT'S part in the sessions will be an address Sept. 11, after which he will press a button to start the Boulder Dam generators.

Linguistic difficulties at the meetings will be surmounted by simultaneous transmission in English, French, German, and Spanish into individual earphones.

The World Power Conferences were conceived by the late D. N. Dunlop, English engineer, as a means of banding all power interests in the post-war rehabilitation campaign.

The first conference was held in London, in 1924; the second in Berlin in 1930. Membership of the conference is made up of engineers, government and private administrators, financiers, electrical manufacturers, utility executives, economists, and sociologists.

The Washington parley is financed by a \$75,000 congressional appropriation and contributions of \$75,000 by the Edison Electric Institute and \$25,000 by the National Electrical Manufacturers' Association.

## ANNOUNCING

# 2 more REDUCTIONS in Long Distance Telephone Rates

Effective September 1, long distance telephone rates are reduced as follows:

1.

On calls to points over 234 miles distant, the charge for a 3-minute conversation is reduced by amounts ranging from 5¢ to \$1.50, depending upon the distance.

2.

Overtime charges on "person-to-person" calls are reduced after three minutes of overtime to the lower "station-to-station" overtime rate. (Overtime charges begin after three minutes of conversation.)

This is the seventh time in ten years that voluntary reductions in long distance rates have been made. It is estimated that the new reductions will save telephone users in Southwestern Bell territory \$1,100,000 a year.

## AMERICAN BOY OFFERS WORLD OF ADVENTURE

During the coming year American Boy stories will take readers into thundering transport planes, into Annapolis and through the Caribbean with the Navy, into the soundless tangles of Georgia's Okefenokee swamp, and even into an imaginary future of space ships, strange machines and science.

There'll be stories of the true adventures of David Irwin, the young man, who, for four years, alone, wandered across the arctic barrens by dog team, going months without seeing a human being and eating only frozen fish. And there'll be Roscoe Turner's inside story of the famous London-to-Melbourne air race.

There'll be advice on hobbies, sports tips from famous coaches and players, suggestions on money-earning and low-cost travel, and articles on dog training, nature's oddities and tomorrow's airplanes.

There'll be stories about the favorite characters of a million boys—Bonehead Tierney, detective; Square Jaw Davis, engineer; Hide-rack, the red-gold collie; Alan Kane, scientist; and Lee, midshipman.

The American Boy costs only \$1 a year, or \$2 for three years, foreign subscriptions 50 cents a year extra. Send your name, address and remittance to The American Boy, 7430 Second Blvd., Detroit, Mich. Service will start with the issue you specify. On newsstands, 10 cents a copy.

Scientists tell us that the albino frog is rarer than human quinquets. You find few oat-meal companies, however, seeking endorsements of the pink and white amphibians.

General Metaxes has told Greek political clubs that they might as well disband, since he already had barred political parties—clambakes or otherwise.

British women spend 50 per cent less for shoes than do American women. It seems a trifle unfair to figure Garbo's footwear outlay into the American average.

Certainly there's a reason. No other gasoline, not a single one, is so accurately matched to the constant changes in your climate. In September or April, every day in the year, Phillips 66 Poly Gas is 100% custom-tailored to the weather at the very place in which you are driving.

Every gallon is, in addition, enriched with extra energy units by the patented POLYMERIZATION process. So less gas does more. This not only helps mileage, but steps up the power-output of your motor.

You'll notice that the extra power saves shifting in a line of crawling traffic. You will feel the fast, smooth, flexible response every time your toe says "go" to the engine. Knock and noise are so reduced that the motor is as easy on the ears as this improved gasoline is easy on the pocketbook.

For greater driving economy and pleasure, make your car an outstanding performer... by filling up with Phillips 66 Poly Gas... the stand-out gasoline that costs nothing extra.

This modern motor oil is rich, full-bodied, and more carbon-free. At a price which makes it a great money-saving value. In cans, 30¢ a qt. In bulk, 26¢ a qt.

Fred Perry Looks Sure Winner at Forest Hills, Says Martin, Who Can't See Much Chance for American Aspirants

BY PHILIP MARTIN

GREAT BRITAIN'S prestige may have suffered slight setbacks in the diplomatic field during the last year, but she still reigns supreme in the men's singles bracket of the tennis world.

Her No. 1 racqueteer, bounding Fred Perry, two-time winner of the U. S. national singles trophy, is the star attraction at Forest Hills.

Out to annex the national singles crown for the third time, Perry appears a certain victor. By winning this year, Perry can gain permanent possession of the trophy.

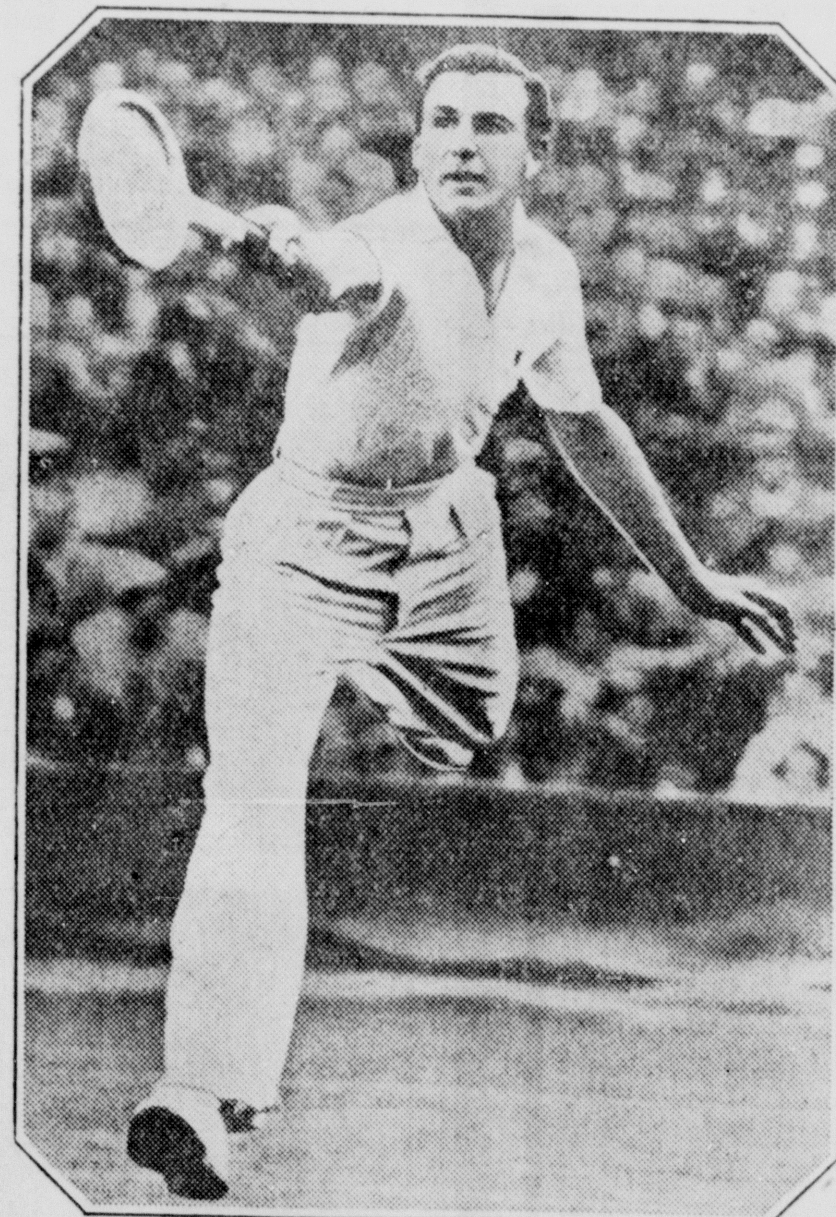

None of his opponents seems capable of even worrying the amazing Perry in this competition. Much the same situation existed last year, however, when Wilmer Allison stormed through Perry in the semi-finals.

PERRY was injured when he fell in that match. Completely recovered now, he is at the top of his game. The Perry backhand, once rather weak, compares with the best. His serve is power plus, and his placements are revelations.

Allison, Don Budge, and Betsy Grant are the main hopes in the stop-Perry campaign. It is not disparaging to say of these capable netters that none of them can hold a candle to Perry in the matter of tennis playing. Any-one who beats Fred Perry in the 1936 nationals will play super tennis.

RED-HEADED Don Budge looks like America's best bet. Perry himself thinks Budge outclasses other U. S. entrants, and he probably is correct. Grant, who is a much better singles man than the U. S. L. T. A. would have you believe, still lacks international experience. Perry defeated Grant earlier this year.

Allison has shown so little ten-

Fred Perry, one of tennis' all-time greats, bounds after a difficult backhand.

nis this year that he plans retirement from singles competition at the end of the season. He says he will play doubles only next year.

There is small chance that the aging Texan will spring another surprise defeat of Perry. It is even doubtful that he will go far

enough to gain a match with the Briton.

The rest of the field includes some good experienced players and some sensational youngsters, among them Bob Riggs, John McDiarmid, Joe Hunt, and Ernie Sutter. Their chances are exceedingly skinny.

uate of Texas Tech and was recommended to the position by Dr. Albert Barnett former member of W. T. faculty and also member of the Canyon school board.

The faculty of the Canyon Public Schools for the school term 1936-1937 is unusually strong both in experience and professional training. There will be six teachers in the high school with masters degrees, or their equivalent, and two with masters degrees in the elementary school. There are only two teachers in the school system who do not have degrees. Several members of the faculty have received outstanding recognition during the past year and summer for work done on state and district committees. Every teacher in the school system is an experienced teacher. This is something rather unusual for any school to have no inexperienced teachers on the faculty.

The faculty for the year reads as follows: Irby Carruth, superintendent; John B. Pope, principal of the high school; Miss Elva Fronabarger, principal of the elementary school. The high school teachers are: Emil Hutto, coach; Grace Clark, mathematics; Mattie Jordan, English; Pauline Crittenden, English; Jewel Foster, Spanish and history; Fannie Sue Brasuel, home economics; R. G. Stevenson, band and science; Milton Sanders, manual training; Gerald Brown, history; Milton Morris, vocational agriculture; and H. G. Moore, English. The elementary teachers include: Mrs. T. W. Collins, Miss Virginia Jarrett, Mrs. L. M. Cousins, Mrs. Stella Murrell, Mrs. Oia Beeson, Miss Gladys McClanahan, Miss Ruth Greenfield, Miss Gwendolyn Black, Miss Annie Ruth Eastus, Miss Belva Cain, Mrs. John Davis, Mrs. Carl Scott, and Mr. John R. The new members of the faculty are, in the high school, Mr. Emil Hutto, athletic coach and history teacher, who is a graduate

## Death At Night

During the normal hours of daylight last year, from 6 a.m. to 6 p.m., according to statistics of the Travelers Insurance Company, there were 14,620 persons killed in automobile accidents, while in the normal hours of darkness, from 6 p.m. to 6 a.m., there were 21,480 deaths. This record raises the question, "Shouldn't drivers and pedestrians be afraid of the dark?"

The exceedingly high rate of death per accident for the normal hours of darkness puts the spotlight on the conditions and conduct of drivers and pedestrians responsible for such a record of fatalities after sun down. At night drivers can't easily avoid what they can't see. This is something that pedestrians need to remember.

G. Stevenson, who last year taught band and elemen-

tary subjects, will teach science and band; Miss Pauline Crittenden of Denton, who will teach journalism and English; H. G. Moore, who has been teaching for the past three years in Oilton, will teach English.

In the elementary school, the new teachers are Miss Belva Cain, who has been an instructor of English in the Claude Public Schools for the past few years; Miss Annie Ruth Eastus, who has been teaching in the Post Schools, and John R. Sanderson of Lubbock.

A special assembly for the school will be held Monday morning at 9:00 o'clock at which time Supt. Carruth invites all patrons of the school to attend.

## Buffs Train

(Continued from first page)

team of last year, emerges several Yearlings that are mighty promising. From the back field comes Thomas of Canyon, who is essentially a plunger; Lyde of Childress, a runner; and Berryman of Parnell, a blocker, each one a star to be and particularly good in these features. In the line, Horton of Pampa, and Fields of Groom are looking for varsity berths at guard. Big Meek of Gageby, and Speer of Tulsa, will be plenty hard to handle and are not to be overlooked.

The Buffs will have a tough schedule this year. With games scheduled in four different states, they expect to bring the bacon home from afar.

Their 1936 schedule:

\*Sept. 18, Panhandle A. & M. College at Canyon.

\*Sept. 25, Texas School of Mines at Canyon.

\*Oct. 2, Texas Wesleyan College at Canyon.

\*Oct. 10, University of New Mexico at Albuquerque, N. M.

\*Oct. 16, Southeastern Okla. Teachers College at Canyon.

\*Oct. 23, Northwestern Okla. Teachers at Alva, Okla.

\*Oct. 31, Sul Ross State Teachers College at Canyon. (Homecoming).

Nov. 7, New Mexico Normal University at Canyon.

Nov. 14, New Mexico Military Institute at Roswell, N. M.

Nov. 21, St. Benedict's College at Atchison, Kan.

\*Night games.
